Houten tabakspotten

Gerrit de Jong is geboren in Ammerstol en heeft vanaf zijn zesde jaar tot aan zijn dood in Schoonhoven gewoond. Na de ambachtsschool begon hij op 15-jarige leeftijd bij een aannemer als timmermansleerling. Daarna, na een cursus technisch tekenaar, kwam hij in dienst bij een architectenbureau waar hij als hoofd uitvoerder verantwoordelijk was voor de restauratie van diverse kerken.

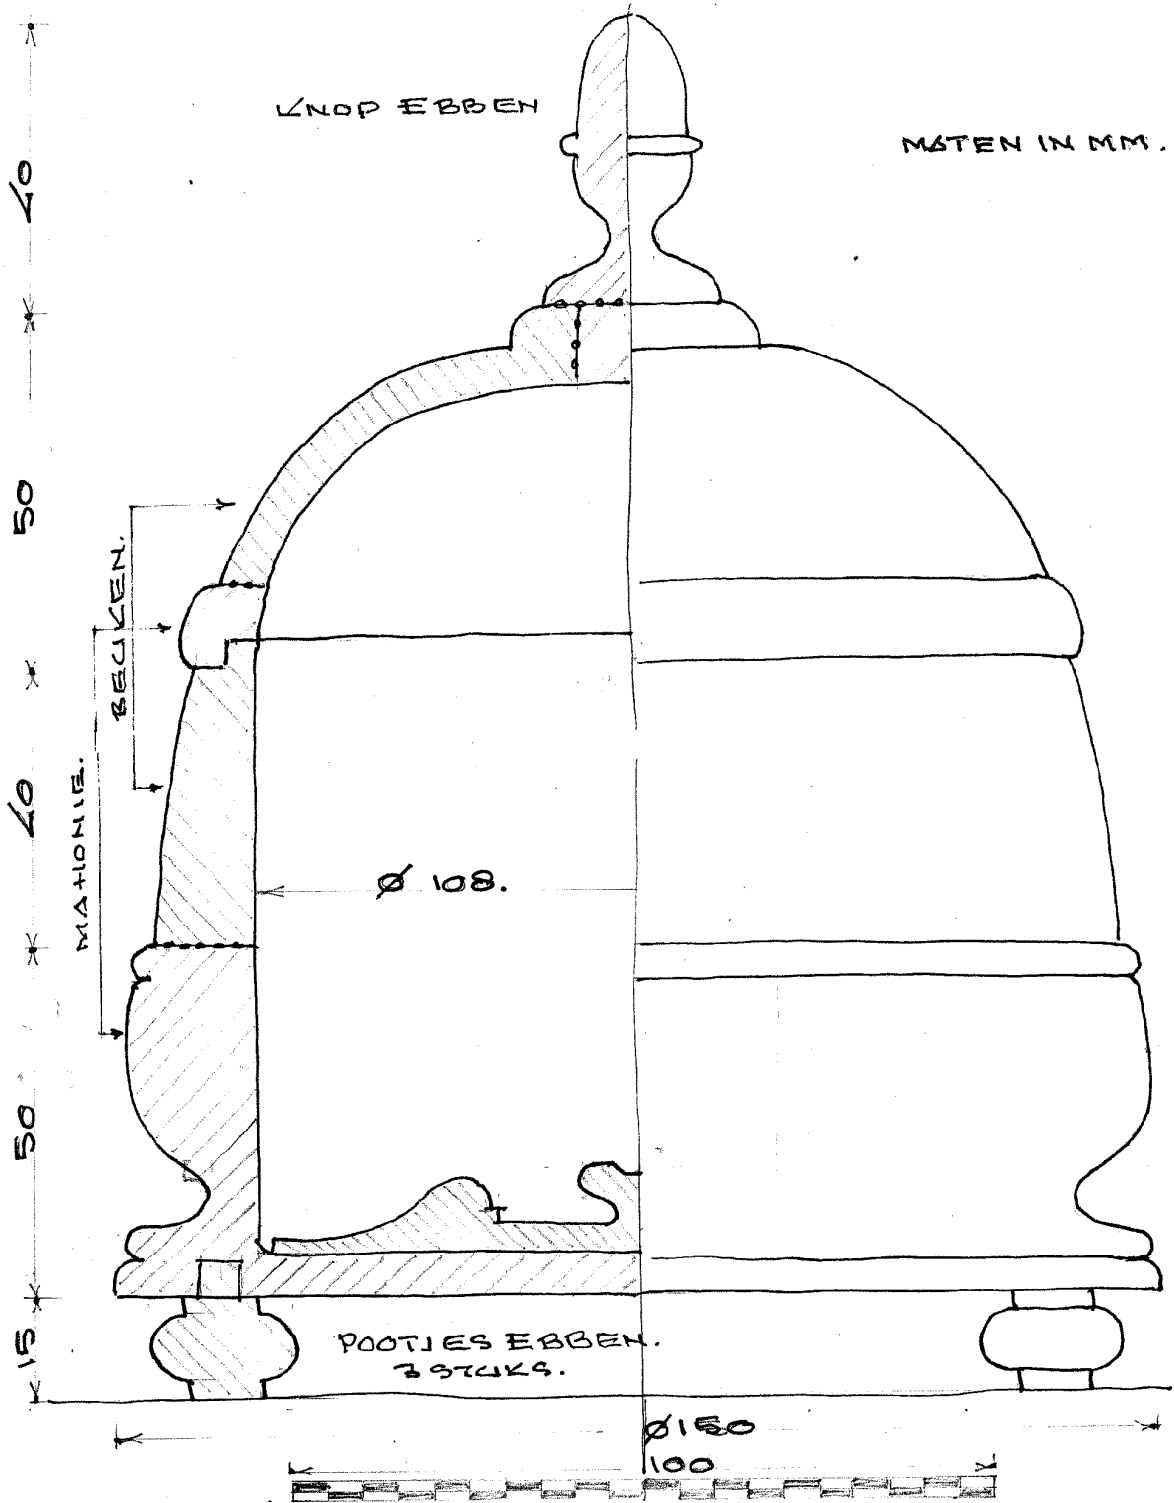

Het hoogtepunt van zijn carrière was misschien wel de restauratie van de Sint-Jan Kerk in Gouda, een project waar hij ruim 13 jaar aan heeft gewerkt.

Naast zijn werk was Gerrit een gepassioneerd houtdraaiër en een van de eerste leden van Radius – de Nederlandse Vereniging van Houtdraaiërs.

Deze hobby begon toen hij 30 was, geïnspireerd door het houtdraaiwerk aan kerkmeubilair. Het begon in 1960 met een zelfbouw draaibank, die al snel werd vervangen door een professionele draaibank.

Na zijn pensionering op 60-jarige leeftijd is Gerrit verder gegaan met houtdraaien. Iets moois maken van oud hout dat vrijkwam bij een restauratie, voor iemand die nauw bij het project betrokken was, bleef iets dat hij met groot plezier deed.

In dit boek vindt u een grote collectie van tabakspotten, allemaal naar bestaande historische modellen en nauwkeurig opgemeten. De meeste potten waren van hout; sommige van metaal of keramiek. Alle potten zijn op ware grootte opnieuw gedraaid door Gerrit de Jong.

G. DE JONG.
